

	Factor 1	Factor 2	Factor 3	Factor 4	Factor 5	Factor 6	Factor 7
	Fear of being transparent	Lack of experience with preregistration	Complexity of own research	Need for datagovernance	Unsupportive environment	Lack of experience with datasharing	Lack of resources for datasharing
How much do you agree on statements regarding possible option of sharing primary research data?							
I prefer to share via an online repository with unrestricted open access				-0.64			
I prefer to share upon personal request				0.53			
I prefer to share under a data sharing agreement to be signed by the recipient				0.79			
Researchers with reasonable interest can work with my raw data on the server of my institution				0.47			
I prefer to share via a managed online repository with restricted access	-	-	-	-	-	-	-
I prefer not to give other researchers access to my raw data	-	-	-	-	-	-	-
Possible barriers for and fears of datasharing							
I am afraid that other researchers will discover errors in my data	0.85						
I am afraid that other researchers will perform alternative analyses on my data and argue that my conclusions are invalid	0.87						
My data set is too complex to share			0.87				
My data set is too big to share			0.8				
My boss does not support online data sharing					0.82		
I have never thought about sharing my research data online						0.47	

I know too little about suitable repositories								0.65
I have never learned to share my research data online								0.61
Preparing data to make it suitable for online sharing is too time consuming for me								0.58
I lack funding to make data suitable for online sharing								0.51
I am afraid that I will not get proper recognition for sharing my data	-	-	-	-	-	-	-	-
I am afraid of being scooped: that other researchers may publish results from my data set before I can	-	-	-	-	-	-	-	-
Possible barriers for and fears of preregistration								
I am afraid that my preregistered methods may turn out suboptimal or inadequate	0.44							
I am afraid that my preregistered hypotheses may turn out false	0.41							
Preparing a preregistration is too time consuming for me		0.49						
I have never learned to preregister a project		0.58						
There is not sufficient reward for preregistration		0.42						
I have never thought about preregistering a project		0.49						
I know too little about suitable preregistration platforms		0.74						
The analyses I do are too complex to preregister			0.41					
My boss does not support preregistration							0.78
